3. Briefly describe any new or additional surface disturbances that occurred during the past year. This description should include the type of work performed, volume of material moved, and the acreage affected.

2 new quarry benches - Drill - Blast - Load w/wheel loader,  
haul with 40 ton rock trucks. Remove 1.2 million tons of  
limestone affecting 9.2 acres of new disturbance.

4. Briefly describe the reclamation work performed during the past year. This description should include acreage reclaimed, methods employed, and an evaluation of the results.

There was no acreage reclaimed because old disturbances are  
used in on-going mining. There were 6 test seed plots established  
in October 1989.

5. What was the total unreclaimed acreage at years end? + 75 acres
6. Briefly summarize mining and reclamation planned for the upcoming year.

We will quarry + 1.2 million tons of limestone, disturbing about

seed plots.
